

Filippo Voltaggio is known as the **Master of Change** and is an Executive and Life Coach, Keynote Speaker, Author, and host of *The LIFE CHANGES Show*. For more than three decades, his life and career have been defined by one constant: **change**.

From rising into junior management at a Fortune 5 company to becoming a professional singer, recording artist, radio personality, keynote speaker, author, and transformational coach, Filippo has repeatedly reinvented himself—not simply to achieve, but to explore life through experience. Along the way, he has developed a deep understanding of what is possible for people and organizations when they are willing to embrace change.

That breadth of experience is at the heart of his coaching. Filippo has personally interacted and worked one-on-one with people from extraordinarily diverse walks of life, including executives, entrepreneurs, billionaires, people experiencing homelessness, celebrities, professionals, creatives, scientists, philosophers, parents, teachers, children, and individuals facing profound personal challenges. His ability to connect authentically across backgrounds and circumstances allows him to meet people where they are—and support them through moments of change.

Today, Filippo works with individuals, teams, and groups seeking meaningful change. Through his transformational programs, **The RECALIBRATION™** and **The Life IMPROVment™ Workshop**, he helps people gain clarity, discover and transcend limiting patterns, navigate transitions, and consciously expand their sense of what is possible.

Filippo holds a Bachelor's Degree in Computer Science and Engineering Management from the University of California, San Diego. After climbing the corporate ladder into junior management, he journeyed from the **ultra-business to the ultra-esoteric**, pursuing professional certifications and training in Life Coaching, Neuro-Linguistic Programming, Time Line Therapy®, Hypnotherapy, and other transformational disciplines.

His accomplishments span business, entertainment, media, and service, including performing as a soloist with full orchestras on PBS, appearing before Presidents, having his music featured in Hollywood films, and receiving recognition for his contributions to service and community.

But for Filippo, the résumé is not the point.

The point is what all those experiences have taught him about himself, people, possibility, and change.

And that is what he brings into every coaching situation and relationship.
