

Working one-on-one with Filippo Voltaggio is an opportunity to step outside the noise of everyday life and take a fresh, honest look at **where you are, how you got there, where you want to go, and what may be standing between the two.**

Through a series of private sessions, Filippo draws upon the principles and tools of **The RECALIBRATION™** to help you examine the relationship between your past experiences, present circumstances, internal patterns, and desired future. Together, you explore the perspectives, assumptions, habits, and limiting patterns that may be influencing your decisions, relationships, leadership, career, and life. The work is highly personal and responsive to you—there is no predetermined formula for who you should become. The objective is to help you discover greater clarity, recognize new possibilities, and consciously determine what comes next.

Filippo brings to this work an unusual breadth of life, business, creative, and human experience. His role is not simply to give you answers, but to **ask the questions that may reveal answers you already have—and possibilities you may not yet have considered.**

For organizations and teams, the same principles can be applied collectively. Filippo can lead teams through an experience designed to deepen self-awareness, strengthen understanding between team members, uncover patterns that affect communication and performance, and create greater cohesion. By exploring the individual **within the group** and the **group as a whole**, teams can move beyond simply working together toward developing a deeper understanding of how they work together.

Whether the work is one-on-one with an executive, a team navigating change, or an entire organization seeking a new direction, **The RECALIBRATION™ is ultimately about creating the space to see differently—so you can choose and create differently.**
